- 1. CALL TO ORDER
- 2. ROLL CALL
- 3. PLEDGE OF ALLEGIANCE
- 4. CHANGES TO ORDER OF AGENDA
- 5. **PUBLIC COMMENT** (Each speaker is limited to two (2) minutes)

Members of the public are appreciated for taking the time to attend this meeting and provide comments on matters of District business. Any member of the public may address the Board relating to any matter within the Board's jurisdiction. This need not be related to any item on the agenda; however, the Board cannot act on an item unless it was noticed on the agenda.

6. CONSENT CALENDAR

Consent Calendar items are considered routine and will be acted upon by one motion. There will be no separate discussion on these items unless a member of the Board, Staff or a member of the Public requests specific items be set aside for separate discussion.

- a. Review of monthly financial report, approval of bills and claims for the months of July and August 2018.
- b. Approval of the minutes from the Regular Board Meeting held July 17, 2018.
- c. Receipt of the District's Quarterly Investment Report for the Period Ending June 30, 2018

7. DISCUSSION AND ACTION ITEMS

The Board of Directors intends to consider each of the following items and may take action at this meeting. Public comment is allowed on each individual agenda item listed below, and such comment will be considered in advance of each Board action.

- a. Adoption of a Resolution Approving a Miscellaneous Fee Policy and Fee Schedule
- b. Adoption of a Resolution Approving an Easement Encroachment Policy
- c. Adoption of a Resolution Approving a 2018/19 Fiscal Year Budget Amendment to Reflect the Board Approved Road Improvement Project Contract Amount
- d. Adoption of a Resolution Approving a Reserve Fund Policy, Including the Equipment Replacement Schedule

8. STAFF AND DIRECTOR REPORTS:

Brief reports may be provided by District staff and/or Board members as information on matters of general interest. No action will be taken by the Board during Reports, however items discussed may be recommended for discussion and action on a future agenda.

- General Manager's Report: Update on the 2018 Road Improvement Project. Update to the Drought Tolerant Landscape Project.
- b. Site Manager's verbal report.

9. ADJOURNMENT

Agenda Materials: May be viewed on the bulletin boards outside the Saddle Creek Pro Shop, on the Sports Club Bulletin Board and at the CSD Website typically three days preceding each meeting date. Materials will also be available at the meeting.

Americans with Disabilities Act Compliance: If you require special assistance to participate in Board Meetings, please contact the CSD Clerk at (209) 785-0100. Advance notification will enable the District to make reasonable arrangements to insure accessibility.

QUARTERLY INVESTMENT REPORT FOR THE PERIOD ENDING June 30, 2018

Saddle Creek Community Services District

BACKGROUND:

In accordance with California Government Code (CGC) Section 53646(b) (l) and the District's Investment Policy, the District Finance Officer and Treasurer shall submit to the Board of Directors a quarterly investment report. The District General Manager is assigned the responsibilities of both Finance Officer and Treasurer as defined in the CGC. The report shall include a complete description of the District's investment portfolio, the type of investments, the issuers, maturity dates, par values and the current market values of each component of the portfolio, including funds managed for Saddle Creek Community Services District by a third party contracted managers, where applicable.

The report must also include a certification that: (1) all investment actions executed since the last report have been made in full compliance with the Investment Policy; and, (2) Saddle Creek Community Services District will meet its expenditure obligations for the next six months as required by CGC Section 53646(b)(2) and (3), respectively. The District Accountant is required to maintain a complete and timely record of all investment transactions, and completes this report, including attachments under the direction of the General Manager.

The Treasurer's Report allows the Board and the public to verify that the District's funds are invested in a safe and prudent manner and that such investments comply with District policy and State Law. The Treasurer's Report is different than a budget report, as its purpose is to report on investment activity, where all cash balances, revenue and expenditures are reported on the monthly financial update provided by the District Accountant.

The District Investment Policy requires Board presentation of quarterly investment reports certified by the District Finance Officer and Treasurer; and each budget process will include consideration of the final quarterly investment report in conjunction with consideration of reaffirmation or amendment to its Investment Policy.

QUARTERLY INVESTMENT REPORT

The majority of the District's investments are under the direct management and control of the District; with the exception of the following:

1. Funds held by the County of Calaveras (County) as a condition of the County's collection and distribution of special taxes. The County deposits assessment payments from the residents of the County in this fund where they are held for periodic payment to the District.

This report, which details balances as of June 30, 2018, shows that District investments under its control total \$100,000.00 and investments under the control of others total \$46,632.17.

Saddle Creek Community Services District QUARTERLY INVESTMENT REPORT – For the Period Ending June 30, 2018

The District holds investments with the following:

State of California Local Area Investment Fund	Acct #**-05-01	Activity per Attachment A Interest paid Quarterly at rates shown below	\$100,000.00
County of Calaveras	Fund #2188	Interest paid interest at the rate received by County for deposits	\$46,632.17

FISCAL IMPACT:

Investment earnings for the quarter ending June 30, 2018 are:

Investment	Apportionment Rate	Quarter to Date Yield	Amount Earned
Local Area Investment Fund State of California (LAIF) Total for quarter	1.9%	1.76%	\$ 357.36 \$ 357.36

Fiscal Year to date Investment Income are: \$386.00

COMPLIANCE WITH STATE LAW AND DISTRICT POLICY

For the quarter ended June 30, 2018 all investments were in compliance with the adopted Investment Policy and Investment Guidelines which include relevant laws and regulations. The investment portfolio has been structured to ensure that sufficient monies will be available to cover anticipated expenditures in the coming six months.

Staff Recommends the following motion:

I move to adopt the Resolution Approving a Miscellaneous Fee Policy and Fee Schedule

<u>Background</u>

The District regularly charges fees for its services, such as gate key cards, clickers and weed abatement. It is recommended that the Board adopt a single miscellaneous fee schedule to include all of the fees charged by the District. The fee schedule is then updated on an annual basis with the budget, if needed. The draft fee schedule, policy language and approving resolution is included.

b. Adoption of a Resolution Approving an Easement Encroachment Policy <u>Recommended Motion</u> Staff Recommends the following motion:

I move to adopt the Resolution Approving an Easement Encroachment Policy

Background

The Board has directed the preparation of a policy to deal with encroachments on Wildlife easements, which appear to be occurring more frequently. Attached is a draft policy and approving resolution.

Saddle Creek Community Services District

Easement Enforcement Policy

The Saddle Creek Community Services District (SCCSD) is committed to the stewardship of its Wildlife easements in order to protect the values of each property subject to an easement and to maintain compliance with the conditions under which the Saddle Creek community was developed. The SCCSD monitors each Wildlife easement within the Community to be sure they are consistent with the restrictions, covenants and reserved rights set forth in the recorded Wildlife easement deed. When the SCCSD documents an activity or action that encroaches on or may be inconsistent with the terms of an easement, the SCCSD addresses the potential violation in a manner that limits impacts to relevant Wildlife values.

Each easement violation presents a unique situation and requires a tailored approach. The SCCSD will seek to address each violation and to develop a strategy to remedy the situation in accordance with the following general objectives:

- A. To maintain the Wildlife and open space purpose(s) of the easement.
- B. To maintain public confidence in the SCCSD's ability to enforce easement restrictions generally and in part as a deterrent to other potential violators.
- C. To protect the SCCSD legal rights and economic investment in the Wildlife easement.
- D. To maintain the most constructive working relationship possible with the property owners.
- E. To remedy the violation according to this policy.

Where possible, SCCSD seeks voluntary easement compliance with landowners, giving them the opportunity to remedy violations. Wildlife values protected by SCCSD's Wildlife easements that are facing imminent harm or destruction require more immediate enforcement than detailed below. Some violations, depending on their severity, may be addressed by staff by discussing the violation with the landowner, documenting relevant facts and decisions and implementing remedies, as appropriate. Significant or recurrent violations require thorough documentation, legal response and enforcement, including removal of encroachments at the violator's expense.

Policy

Except for compliance issues and technical violations (see below) that are quickly resolved by staff and the landowner, the board of directors will be notified of violations. The propriety of SCCSD's actions in response to a violation depend on many contextual facts, including, but not limited to, the certainty that a violation has occurred, the quality of the evidence of violation, the extent and willfulness of the violation and the willingness of the landowner to resolve the matter amicably and quickly. The General Manager is authorized and directed to enforce this policy.

The following guidelines have been adopted to direct the staff's and board's responses to suspected Wildlife easement violations, recognizing that full observation of every guideline may

not be appropriate in every circumstance. If an activity is discovered that is or may become an enforcement issue, it shall be handled in accordance with the procedures set forth below. SCCSD categorizes its enforcement actions into two categories: technical violations and material violations.

- a. <u>Technical violations.</u> These types of enforcement issues do not significantly limit or inhibit the intended purpose of the easements and do not result in significant physical or resource damage to the easement. Technical violations include but are not limited to the temporary encroachment on an easement through the storage of construction or landscape materials.
- b. <u>Material violations</u>. A material violation is an activity that is not specifically authorized under the easement restrictions and that encroaches upon, impairs, harms, damages or destroys a protected Wildlife value or impairs the purpose of the easement. Material violations include, but are not limited to the installation of landscape plantings, hardscape, fencing, outbuildings, steps, walls or other property improvements.

The three-step process to identify and remedy easement encroachment issues with SCCSD and property owners:

- 1. **Voluntary abatement** Identify violation, give the property owner a 30 day opportunity for voluntary easement encroachment compliance.
 - a. If property owner disagrees with District identification of easement boundaries, a property survey can be completed at the owner's expense
- Notice of Violation If violation remains after the initial 30 days, a Notice of Violation will be sent with 10 days for property owner to respond to compliance issues with their remedy. All violations must be remedied within 30 days of the Notice of Violation for technical violations and 60 days for material violations, unless otherwise approved by the District.
 - a. SCCSD will respond in a timely manner as to whether there is agreement or disagreement with the property owner's proposed remedy and timeline to become compliant.
- 3. **Abatement** If no response is received, or response is rejected by the District, the District will pursue legal action and other means to remedy the violation, with all associated costs to be paid by the property owner
- 4. **Fees and Fines** An easement encroachment violation fee to cover administrative and processing costs shall be levied in accordance with the District's current Miscellaneous Fee Schedule.

RESOLUTION NO. 2018-___

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE SADDLE CREEK COMMUNITY SERVICES DISTRICT APPROVING AN EASEMENT ENCROACHMENT POLICY

WHEREAS, the Saddle Creek Community Services District (herein referred to as District) is a local Government agency formed and operating in accordance with Section §61000 et seq. of the California Government Code; and

WHEREAS, in accordance with California Government Code 61045, (g) The board of directors shall adopt policies for the operation of the district, including, but not limited to, administrative policies, fiscal policies, personnel policies, and the purchasing policies; and

WHEREAS, the District has the designated responsibility for the maintenance and administration of Wildlife Habitat Easements created throughout Saddle Creek; and

WHEREAS, the Property deed restrictions exist prohibiting encroachment onto the Wildlife Easements and the District is responsible for enforcement of such restrictions, and the Board of Directors has directed the development of a policy detailing the easement enforcement process.

NOW THEREFORE BE IT RESOLVED THAT THE BOARD OF DIRECTORS OF THE SADDLE CREEK COMMUNITY SERVICES DISTRICT DOES HEREBY approve the Easement Encroachment Policy contained herein as Exhibit A.

c. Adoption of a Resolution Approving a 2018/19 Fiscal Year Budget Amendment to Reflect the Board Approved Road Improvement Project Contract Amount

Recommended Motion

Staff Recommends the following motion:

I move to adopt the Resolution Approving a 2018/19 Fiscal Year Budget Amendment to Reflect the Board Approved Road Improvement Project Contract Amount

Background

The budget adopted for the 2018/19 fiscal year contained capital outlay expenses of \$682,931 for the 2018 Road Restoration Project, in accordance with the Engineer's estimate of probable costs. Unfortunately, the construction bids received were much higher than the engineer's estimate, but the Board chose to award the construction contract considering the fact that adequate cash was available for the project between the District's fund balance and loan proceeds.

The awarded the contract for the project at the amount of \$726,330, we have negotiated change orders resulting in a total savings of \$7,455 as shown in the attached contractor invoice. As shown in the current Treasurer's Report, we have made one payment of \$682,931.15, leaving a balance to be paid of \$35,944; which is the 5% retention amount. Only \$5,132 remains in the budget, and therefore a budget amendment in the amount of \$36,000 is necessary. The project is substantially complete, and we do not expect any additional significant related costs this year. A draft budget amendment resolution is attached.

RESOLUTION NO. 2018-___

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE SADDLE CREEK COMMUNITY SERVICES DISTRICT ADOPTING AN AMENDMENT TO THE 2018/19 FISCAL YEAR BUDGET

WHEREAS, the Saddle Creek Community Services District (herein referred to as District) is a local Government agency formed and operating in accordance with Section §61000 et seq. of the California Government Code; and

WHEREAS, on June 19, 2018, the Board of Directors adopted the 2018/19 fiscal year budget which contained specified funding for a major road improvement project; and

WHEREAS, the bids for the road improvement project were received in excess of the budget, but adequate funding was available to award the construction contract; and

WHEREAS, it is necessary to amend the 2018/19 budget to include the actual estimated final cost of the 2018 road improvement project.

NOW THEREFORE BE IT RESOLVED THAT THE BOARD OF DIRECTORS OF THE SADDLE CREEK COMMUNITY SERVICES DISTRICT DOES HEREBY approve an increase of \$36,000 to the 2018 Road Improvement Project.

Regular Meeting of September 18, 2018

AGENDA SUPPORTING DATA

7. DISCUSSION AND ACTION ITEMS

d. Adoption of a Resolution Approving a Reserve Fund Policy, Including the Equipment Replacement Schedule

Recommended Motion

Staff Recommends the following motion:

I move to adopt the Resolution Approving a Reserve Fund Policy, Including the Equipment Replacement Schedule

Background

The Board's approved Management Objectives includes initiatives intended to raise the visibility and public understanding of the District, as well as to effectively and efficiently manage the District finances. The District has the need to accumulate a variety of funding reserves to ensure that we always have enough money in place, at the time needed, to efficiently deliver our services, and charge the appropriate fees to existing and new customers to ensure that all ratepayers benefit evenly from the District services.

In March 2017, the Board reviewed draft reserve policy language and has since reviewed a draft equipment replacement reserve/schedule. Measure A, approved on May 2, 2017 contains funding for road improvements in perpetuity, as well as funding for reserves to replace costly infrastructure and equipment. As part of our commitment to transparency and accountability with regard to expenditure of public (tax) funds, the establishment of reserve funds will assist the public in understanding how their tax dollars flow into community improvements now and in the future.

State law provides requirements for the establishment of reserves, and the California Special Districts Association produces a Reserve Guideline Manual for the development of comprehensive reserve policies and programs. The attached draft policy is developed in compliance with the law and CSDA guidelines.

SADDLE CREEK COMMUNITY SERVICES DISTRICT Policy and Procedures Manual

POLICY TITLE: Reserve Policy POLICY NUMBER: (to be established) ADOPTED: AMENDED:

This statement is intended to provide policy and direction concerning the District's comprehensive reserve policy.

BASIC POLICY AND OBJECTIVES

The Saddle Creek Community Services District reserve policy is a financial policy guided by sound accounting principles of public fund management. The policy establishes several reserve funds intended to:

- Minimize adverse annual budgetary impacts from fluctuations in anticipated and unanticipated District expenses
- Ensure that new development projects pay the proportional cost of the value in the existing system and the cost of system expansion needed to serve the needs of newly created parcels
- Plan and set aside funding in advance for known future expenditures, to make cash available for purchases when necessary and to conduct planning, design, permitting and other capital improvement project preparatory actions
- Ensure that adequate funding is available through mitigation type fees to construct improvements related to expansion of the road network and related infrastructure

The adequacy of the target reserve year end balance ranges and/or annual contributions will be reviewed annually during the budgeting process and may be revised accordingly as necessary. The following District reserve fund categories are established (the purpose, target balance, methodology, use of funds and funding for each will be detailed in the final policy):

1. Capital Facility Replacement Reserve (All Infrastructure)

- 1.1. <u>Purpose</u>: Special Taxes are collected for the future replacement of existing facilities and infrastructure.
- 1.2. <u>Target Balance</u>: The target balance will be established upon completion of the infrastructure condition analysis and replacement program. As new or replacement facilities are built, acquired or purchased, the target balance will increase in order to provide for the ultimate replacement of these facilities at the end of their life-cycle. As such, the current target reserve balance is the amount that should be funded at

the end of each fiscal year according to the replacement reserve study, which will be reviewed annually.

- 1.3. <u>Methodology/Rational</u>: The District records depreciation using the straight-line method over the estimated useful lives of facilities and equipment. The fee is collected to replace District facilities and equipment as they reach the end of their useful life and also to handle unanticipated repairs during the life-cycle.
- 1.4. <u>Use of Funds</u>: The funds will be used to replace facilities as necessary to continue District drainage, road, lighting, mosquito control, common area maintenance and privacy entrance services.
- 1.5. <u>Funding</u>: Annual contributions from special taxes are currently based upon annual projected requirements in conjunction with the overall budget and replacement reserve study. Interest earnings will be accrued on and added to fund balance, using the District's earnings rate on investments. In addition, the Board of Directors may approve the designation of available fund balance as Capital Replacement Reserves provided, however, that sufficient Operating Fund balances are preserved

2. Capital Equipment Reserve (All Rolling Stock and Equipment)

- 2.1. <u>Purpose</u>: Special Taxes are collected for the future replacement of existing rolling stock and major equipment.
- 2.2. <u>Target Balance</u>: The target balance is shown in the attached Equipment Replacement Reserve Schedule, and is the amount needed to provide for the ultimate replacement of equipment upon terminal breakdown and at the end of their life-cycle. As such, the current target reserve balance is the amount that should be funded at the end of each fiscal year according to the Equipment Replacement Reserve Schedule, which is reviewed annually.
- 2.3. <u>Methodology/Rational</u>: The District records the purchase cost as well as the estimated lifecycle and replacement cost of each piece of equipment. The special tax is collected to replace District equipment as they reach the end of their useful life and also to handle unanticipated major repairs during the life-cycle.
- 2.4. <u>Use of Funds</u>: The funds will be used to replace equipment as necessary to continue District services.
- 2.5. <u>Funding</u>: Annual contributions from special taxes are currently based upon annual projected requirements in conjunction with the overall budget and replacement schedule. A target minimum annual contribution of \$46,550 is hereby established. Interest earnings will be accrued on and added to fund balance, using the District's earnings rate on investments. In addition, the Board of Directors may approve the designation of available fund balance as Capital Equipment Replacement Reserves provided, however, that sufficient Operating Fund balances are preserved

3. Road Improvement and Maintenance Reserve

- 3.1. <u>Purpose</u>: Special taxes are collected for the ongoing major maintenance and restoration of District roads and related infrastructure, such as sidewalks and medians.
- 3.2. <u>Target Balance</u>: The target balance is to be established based on engineer's estimates of road renovation costs and schedules, with the goal to maintain the

asphalt in a condition of good to very good based on standard pavement condition indexes. The current annual reserve funding amount is established at \$130,000 based on a 2016 Pavement Condition Report. As roads are renovated, the target balance will increase in order to provide for ongoing renovation work at current construction costs. As such, the current target reserve balance is the amount that should be funded at the end of each fiscal year according to short term and longer range (time scheduled) renovation plans, which is reviewed annually.

- 3.3. <u>Methodology/Rational</u>: The District completes engineering evaluation to prioritize road improvements and major maintenance to ensure predictable, long term cost savings and good pavement condition. The special tax is collected in an amount necessary to renovate and restore asphalt roads and related infrastructure to an industry standard of good to very good, and also to handle unanticipated major road repairs and replacement during the life-cycle.
- 3.4. <u>Use of Funds</u>: The funds will be used to fund road related infrastructure repair and restoration work on an ongoing and longer-term basis, based on periodic engineering evaluations.
- 3.5. <u>Funding</u>: Annual contributions in the amount of \$130,000 from special taxes are currently based upon annual projected requirements in conjunction with the overall budget and periodic pavement condition reports. Interest earnings will be accrued on and added to fund balance, using the District's earnings rate on investments. In addition, the Board of Directors may approve the designation of available fund balance as Capital Replacement Reserves provided, however, that sufficient Operating Fund balances are preserved

4. Operating Fund Contingency Reserve (All Services)

- 4.1. <u>Purpose</u>: To ensure cash resources are available to fund daily administration, operations and maintenance of providing all District services.
- 4.2. <u>Target Balance</u>: A minimum of six months of cash to fund District expenditures.
- 4.3. <u>Methodology/Rational</u>: The District is required to have sufficient cash flow to meet the next six months of budgeted District expenditures (Government Code Section 53646(b)(3)). The next six months of projected cash revenues can be included as a source of cash flow to satisfy this requirement. Revenues in excess of reserve contributions and expenditures resulting from expenditure savings or timing differences are also reflected in this fund.
- 4.4. <u>Use of Funds</u>: These funds will be used to pay for expenditures according to budget and expenditure authority.
- 4.5. <u>Funding</u>: Annual contributions will vary, depending upon other reserve requirements and current year expenditure requirements. Additionally, interest earnings will be accrued on and added to fund balance, using the District's earnings rate on investments.

NOTES: This scenario is systainable for multiple cycles as evidenced by the beginning and ending balances highlighted in GREY. (as long as the requirement stay consistent, of course.). It is typical in implementing a new reserve policy to combine "pay as you go" and spending down reserves to fund purchases in the first few years; as adequate time has not passed to accumulate required reserves. The \$46.5K is above the amount budgeted in the Special Tax budget of \$40K.
