Re: 2014 Fire Prevention Activities

Dear Property Owner:

Beginning in May, 2014, the District began our annual weed abatement program.

In order to minimize fire danger and comply with Cal-Fire Regulations, properties must be free of potential fire hazards such as weeds.

In the event that you would like the District to handle weed abatement on your property, please send the completed "Request for Weed Abatement Services" form, which is included with this letter, with your check in the amount of \$50(no cash please)for each lot to be mowed. Checks should be payable to "Saddle Creek CSD Treasurer", 1000 Saddle Creek Drive, Copperopolis, CA 95228.

Should you desire to handle weed abatement activities yourself or through a private contractor, please make sure your property is mowed prior to July 30, 2014. Dependent upon growth (if the average height of the grass becomes higher then 6"), a second mowing will be necessary prior to the end of the 2014 Fire Season.

Due to the high risk of fires in our community, it is essential that proper prevention measures are completed on a timely basis; therefore, any property that has not been mowed by July 30, 2014, will be abated by the District, and the owner will be billed a fee of \$50.00.

Please contact Maintenance Manager Greg Hebard at (209) 768-5678 if you have questions regarding this matter.

Sincerely,

Scott Baker, CSD Vice-President
Saddle Creek CSD
