

Saddle Creek Community Services District

Regular Meeting of August 16, 2016

AGENDA SUPPORTING DATA

7. DISCUSSION AND ACTION ITEMS

- b. Status update and review of the agreement between the District and Castle & Cooke regarding the operations of the entrance gate and related matters.

Background

An agreement has been executed between the District and Castle & Cooke regarding the operation of the entrance gate and related matters. The agreement terms and conditions were developed cooperatively between the District and Castle & Cooke, and were based on Board directives given in meetings in March and April 2016. The Board has not seen or discussed the final agreement as drafted.

As a result of a number of inquiries from Board members regarding the status and content of the agreement, I have placed the item on this agenda for discussion and clarification. The final agreement is attached.

Recommended Motion

No action is required, this is an information only item.
