SUBJECT: 7a) Adoption of a Resolution approving a change in the District name

from Saddle Creek Community Services District to Copper Valley

Community Services District

RECOMMENDED ACTION

Staff recommends the following action:

I move to adopt a Resolution approving a change in the District name from Saddle Creek Community Services District to Copper Valley Community Services District

BACKGROUND

The Calaveras County Local Agency Formation Commission (LAFCO) requires the adoption of a resolution changing the name of the District. We have requested the required form of resolution from LAFCO, and expected that the resolution would have been made available before this meeting. Unfortunately delivery of the resolution has been delayed but should be available before the meeting.

SUBJECT: Item 7b) Consideration of the terms and conditions of a memorandum

of understanding with CV Saddle Creek, LLC, CV Saddle Creek

Holdings, LLC and Saddle Creek Golf Club, LLC regarding

provisions relating to the operations, duties, costs, equipment usage, utilities, water, stormwater management, wetland management and permitting, wildlife habitat, road and common area maintenance

RECOMMENDED ACTION

No specific action is recommended at this time.

BACKGROUND

Staff continues to evaluate the potential terms and conditions of an Memorandum of Understanding with CV Partners. Last month it was reported that the delay in finalizing the agreement with CV partners was related to securing appropriate approvals from CV Partners, Castle & Cooke and CCWD to release private water consumption data. CCWD authorized the release of the data and provided a portion thereof on September 26, 2019. Since that date SCCSD staff has been reviewing and comparing the data to assumptions made in developing the proposed proportional split of water meter bills.

Unfortunately, even after onsite meetings, phone conversations and emails, data has not been made available on two (of six) accounts in question so there is no way to complete the financial evaluation of the draft agreement at this time. We have asked CV Partners to work with CCWD and district staff to resolve the remaining discrepancies as soon as possible. Due to this matter being a negotiation of real property, all discussions of positions should be conducted in closed session.

It is appropriate in open session to receive board direction at this meeting to send this to our legal counsel, and on how we would like to amend the budget to fund costs associated with water payment to CV Partners in the future. As we have discussed, due to the significantly increased cost of road maintenance and renovation work, there is no cash available in the current budget to fund water payments, therefore expense or revenue adjustments will need to be made depending upon the final amount of agreed upon water payments. Some budget amendment options include:

- 1. Reducing water consumption through landscape changes such as turf removal
- 2. Reducing staffing and maintenance services
- 3. Reducing the equipment replacement reserve fund
- 4. Reducing the infrastructure replacement reserve fund which is planned for next year
- 5. Reducing the road project loan amount and debt service

6. Dedicating the last special tax increase next FY to fund the water costs, and reconfigure and redistribute a much lower amount to the infrastructure and equipment reserves to maintain within the current cashflow.

Due to road cost increases and proposed water payments, there will obviously be no funding available for a drought tolerant landscape improvement project, even with implementation of the final special tax increase in 2020/21.

SUBJECT: Item 7c) Consideration of impacts of the PG&E Public Safety Power

Shutdown (PSPS) on District operations

RECOMMENDED ACTION

No specific action is required at this time

BACKGROUND

PG&E implemented its first Public Safety Power Shutdown based on authority from the Public Utilities Commission and weather predictions for high winds and low humidity. With extended power outages, there will be impacts to the SCCSD operations. Director Don Kurtz has requested that an item be placed on the agenda to discuss PSPS impacts to SCCSD operations, in the event budget amendments may be necessary.

SUBJECT: Item 7 d) Consideration of potential amendments to the General

Manager Consulting Agreement as a result of Assembly Bill 5, which

makes changes to the California Labor Code declaring certain

contractors as employees effective January 1, 2020

RECOMMENDED ACTION

Staff recommends the following action:

I Move to direct the matter to legal counsel for review and action

BACKGROUND

Assembly Bill 5 enacted in September 2019 will impact the ability of Kampa Community Solutions, LLC to serve as an independent contractor in the position of SCCSD General Manager. Most notably, AB 5 defines who is an employee for purposes of California's wage orders. The wage orders, for the most part, do not apply to public agencies; instead, we must follow the federal Fair Labor Standards Act's provisions with regards to working hours, overtime pay, etc. Nevertheless, AB 5 does impact public agencies by extending this newly-stated definition of employee to the California Labor Code generally (including provisions regarding worker's compensation, etc.) and the Unemployment Insurance Code.

For the District to continue to classify the General Manager as an independent contractor, we must show that:

- (A) the General Manager is free from the District's control and direction;
- (B) the General Manager performs work that is outside the usual course of SCCSD's business, AND:
- (C) the General Manager is customarily engaged in his own business of the same nature as that involved in the performed work.

Unfortunately the CSD law defines the roles and responsibilities of the General Manager as a required normal function of the District, which is in direct conflict with B above. The Board by practice and policy does provide direction and control to the General Manager in assignment of management performance objectives, performance evaluations and other actions which appear to be in conflict with item A above. Although Kampa Community Solutions, LLC is in the business of providing management consulting for any special district, the fact that they are contracting for a regular District function (GM) is problematic with this new law.

It is recommended that the District seek legal counsel on this matter. For a point of reference, the cost to transition the GM directly from a contractor to an employee at the same gross pay is as follows:

Based on gross wages of \$71,546.16 ($$5,962.18 \times 12$) the taxes to the district would be \$5,627.28.

Social Security = \$4,435.86 Medicare = \$1,037.42 FUTA = \$42.00 SUTA = \$112.00 Total = \$5,627.28
